Polish Heating – regulation and funding

June 2025

Who am I?

Energy Governance Partnership

- Part of Danish Government's Global Climate strategy
- Close cooperation with PL authorities
- Knowledge-sharing, inspiration and support on policy for a clean transition
- Coordinated and supported by experts and resources in the Danish Energy Agency

Niels Frederik Malskær, Senior Energy Advisor

- Diplomatic envoy at Danish Embassy in Warsaw
- Previously worked at Danish Energy Agency

**MINISTRY OF FOREIGN AFFAIRS

The Trade Council

Danish Energy
Agency

Status and challenges

- EU financing is available
- Widespread engagement from local heating companies to go green
- New heat strategy expected in conjunction with NECP
- Extensive collaboration between DEA and relevant partners.
- Coming revision of tariff regulation
- Lack of standardized project assessment tools
- Need for coordinated heat planning
- Need better understanding of the roadmap and process of going green
- Need for better understanding of new business cases in decentralized DH
- Value of sector coupling is not broadly understood

Grants and access to funding

National Fund for Environmental Protection and Water Management (NFOŚiGW):

- Offers co-financing for district heating upgrades, RES integration, and emissions reduction.
- Up to 85% funding for selected projects.

Just Transition Fund (JTF):

- Focus on coal-heavy regions (e.g., Silesia).
- Funds for replacing coal with sustainable heating solutions.

Priority Areas:

- Biomass, geothermal, waste heat, and heat pumps.
- Digitization and smart metering in heating networks
