

DBDH

The webinar is a part of the project 'Strategic energy collaboration in Poland'

Overview of the webinar series:

APRIL 21, 2026 10.00 – 11:30 CET	1. Electrification of the DH Sector	SIGN UP HERE
MAY 12, 2026 10.00 – 11:30 CET	2. The different Types of Electricity Markets	SIGN UP HERE
JUNE 2, 2026 10.00 – 11.30 CET	3. Practical Experiences from Danish Utilities	SIGN UP HERE

The participants in the project are:

- Danish Board of District Heating
- Silesian University of Technology (PL).
- Municipality of Høje-Taastrup (DK).
- Royal Danish Embassy in Warsaw.
- Gullev DH Advisory.

Project funded by
Danish Energy Agency

Program

Introductions to markets that are available to DH companies in Denmark. How DH units in Denmark are gradually becoming more active in the electricity markets for day-ahead and ancillary services. The role of Balance Responsible Party (BRP) and other actors.

Speaker: Jakob Krogshave Laursen, Danish Commodities

How it works step-by-step in daily operation. Linking the physical systems (technology) and the electricity markets. Including facts about large-scale e-boilers and the part they play in both heat and electricity systems.

Speaker: Jens Seehusen Christensen, Inopower

Introduction to the electricity markets in Poland (spot, ancillary services, and trading). Current status and the transitions ahead.

Speaker: Aleksandra Gawlikowska-Fyk, PSE

Moderator: Hanne Kortegaard Støchkel, DBDH

Poland | Practical Experience from Danish Utilities |

Webinar 3

June 2 @ 10:00 am – 11:30 am

Program

Overview of how Danish utilities interact with electricity markets through coal-based CHPs, Waste- to-Energy plants, and new units like heat pumps and electric boilers

Speaker: Lars Gullev, Gullev DH Advisory

Practical experiences from a Danish DH utility that combines biomass-CHP, e-boiler, heat pump, and heat storage in an affordable and robust setup. How difficult is the daily operation, and why did they make the investments into so many different types of units?

Speaker: Marc Roar Hintze, Assens Fjernvarme

Lessons learned for strategic investment plans in Poland

Speaker: Jacek Kalina, SUT

Moderator: Hanne Kortegaard Støchkel, DBDH
